

IPwe

THE PATENT PLATFORM

POWERED BY BLOCKCHAIN AND ARTIFICIAL INTELLIGENCE

Utilisation de la blockchain dans les brevets
LES France
4 décembre 2018

WHERE SHOULD WE FOCUS THIS YEAR?

"BLOCKCHAIN"

IT WILL CHANGE EVERYTHING.

EVERYBODY IS TALKING ABOUT IT.

THE POTENTIAL APPLICATIONS ARE ENDLESS.

WE DON'T WANT TO BE LEFT BEHIND.

WHAT EXACTLY IS BLOCKCHAIN?

ALSO, "ARTIFICIAL INTELLIGENCE"

Introduction

15 years of experience in the patent industry

Mostly in Patent Assertion Entities

private

state-owned

Heavy user of Patent Intelligence tools

Last 18 months spent in a Blockchain for Patents project

Agenda

Blockchain Technology

Blockchain and IP

Blockchain and IP today

IPwe experience

What s meant when we speak about blockchain?

Blockchain is not equal to Bitcoin

Blockchain is not equal to ICO

Blockchain is a technology

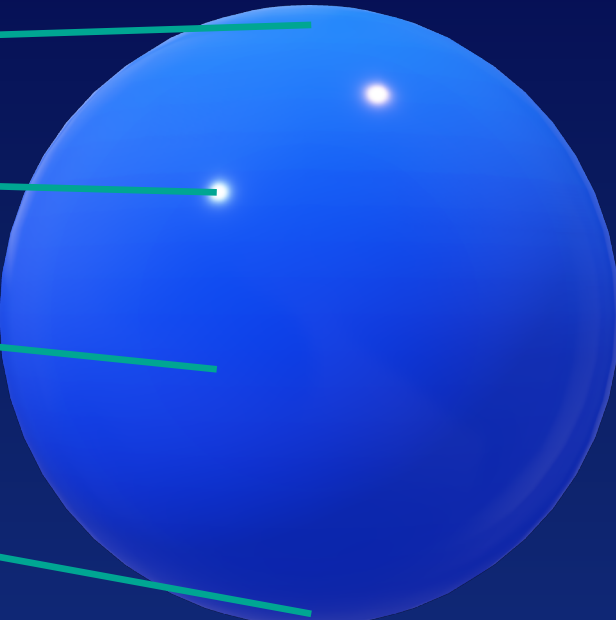

Blockchain main concepts

No Central Authority

Distributed ledger

Cryptography-based trust

Smart Contracts

Blockchain benefits

Blockchain use cases (non financial)

Blockchain as a Service

Microsoft, IBM, Deloitte, Ethereum

Compliance and security

Looking at the future

A Single Platform for the World's Patent Ecosystem

IPwe leverages blockchain and artificial intelligence providing the first platform to transact in patents and patent services.

IPwe makes it easy to assess patent portfolios, buy or sell patents and engage relevant third-party services (deep patent expertise, filing, maintenance fee and legal services). IPwe enables new types of services that are currently impractical or unavailable including, insurance, crowdsourcing R&D, patent-based financing and much more.
